The Climate Leadership and Community Protection Act of 2019 (CLCPA), Chapter 106, set bold emissions goals. According to the 2021 Statewide Greenhouse Gas Emissions Report, buildings accounted for 32 percent of statewide emissions in 2019, primarily because of fuel combustion. The purpose of this hearing is to receive testimony on the feasibility and timing of the implementation of all-electric requirements in new construction, and to examine potential impacts to energy infrastructure and ratepayers.

Persons wishing to present pertinent testimony to the Committees at the above hearing should complete and return the enclosed reply form as soon as possible. It is important that the reply form be fully completed and returned so that persons may be notified of means by which to testify and/or in the event of emergency postponement or cancellation. Oral testimony will be limited to five minutes' duration. In preparing the order of witnesses, the Committee will attempt to accommodate individual requests to speak at particular times in view of special circumstances. These requests should be made on the attached reply form or communicated to Committee staff as early as possible.

**Written testimony should be submitted via email two days prior to the hearing.**

Attendees and participants at any legislative public hearing should be aware that these proceedings are video recorded. Their likenesses may be included in any video coverage shown on television or the internet.
